

# Going Going Gone Food Web Worksheet

Name \_\_\_\_\_

Answer the following questions by using the food web diagram below.

1. Use arrows to illustrate how marine life in the food web is connected. Which organisms are the producers and which are the consumers?
2. Identify two different three-link food chains in this food web.
3. What do you think would happen to the cod, squid, and puffins if the caplin were gone?
4. Do you think the seals and whales might be affected? How?
5. How do you think you might be affected if caplin were extinct?
6. Explain how the extinction of the caplin would affect our economy or way of life.
